

School Values

Value we are focusing on	Definition
Respect	Respect is treating someone or something the way that you would want to be treated.
Collaboration	Collaboration is working together or alongside one another; listening to or sharing ideas; and respecting the opinions of others to achieve a common goal.
Responsibility	Being responsible means you do the things you are expected to do and accept the consequences of your actions.
Curiosity	Curiosity is the desire to learn. It is an eagerness to explore, discover and figure things out.
Confidence	Confidence means believing in yourself and knowing you can achieve the things you set out to do.
Resilience	Resilience is bouncing back from difficulties and keeping on going.

Whole school values driver:

- Assemblies around the values
- Display showing the values with description & relevant quotes
- Examples of children added to the board when they have shown the value of the month
- All values displayed & referred to

Staff use vocabulary relating to values consistently and regularly, recognising in children when they have shown a particular value and explicitly explaining what they have done to show that value. The values should guide our discussions around behaviour, helping children to reflect when they haven't demonstrated our school values and helping them to understand what they could do.
