

Dear Parents and Carers,

We are thrilled to inform you that during the next half term, KS2 pupils will be engaging in Outdoor Adventurous Activities as part of their PE curriculum. This includes a professionally installed orienteering setup, which has already sparked excitement among our pupils.

Throughout this unit, pupils will develop skills in problem-solving, team-building, communication, as well as orienteering and map-reading, among many other areas. Please note that lessons will primarily take place outdoors in various weather conditions, so we kindly ask that you provide suitable waterproof coats and warm clothing. Older trainers or shoes that are suitable for outdoor use are also recommended.

For further information, please visit [this link](#).

Thank you for your support, and we look forward to a half term filled with adventure and learning!

Warm regards,

Mr Smith
